

Erasmus + : A poster competition featuring safety equipment !

Within the framework of the Erasmus + project and our partnership with the Aviation Academy in Belgrade, Serbia, and the Istituto Aeronautico in Catania, Italy, a poster competition was held featuring safety equipment such as PPE (personal protective equipment). The visitors present at the school's Open Day on Saturday 26 March were able to vote for their favourite poster, and here are the results! The poster designed by Teodora Vuckovic from the Aviation Academy in Belgrade was the winner:

SAFETY FIRST,
REVOLUTION SECOND

VIVE LE PPE

The second most popular poster was the one created by Mattéo Cardone and Léo Brécy from the LPO Alexandre Denis.

And on the 3rd step of the podium: here is the posters made by Lana Varničić from the Aviation Academy of Belgrade.

**Maybe if Dumbledore
wore a helmet, he
wouldn't have died.**

Wear PPE.

Congratulations to all and to all the contestants !
